

# **PRODUCT DATA SHEET**

# FEED GRADE UREA CATTLE FEED SUPPLEMENT

#### **GUARANTEED ANALYSIS**

Total nitrogen (N), by weight minimum	0.46			
Crude Protein, by weight minimum	287 units			
Urea, by weight typical	0.957			
% Nitrogen from urea by weight	0.446			
Biuret by weight typical	0.025			
% Nitrogen from biuret by weight	0.01			
Methanol Urea (MU) by weight	0.5% to 1.5%			
% Nitrogen from MU by weight	0.005			
Ammonia by weight maximum	150 ppm			
Water by weight maximum	0.003			
Loose Density Ibs / ft <sup>3</sup>	48 to 51			
Packed Density lbs / ft <sup>3</sup>	53 to 56			
pH one molar solution	7.0 to 9.5			

#### TYPICAL SIZE DISTRIBUTION

U.S. Standard Mesh	+14	+20	+40	+70	fines
Average % retained	32	60	7	1	1

In terms of fertilizer, the Size Guide Index (SGI) is 115 and the Uniformity Index (UI) is 64.

#### **Product Description**

UREA FEED PRILL is a small diameter, spherical white solid. It is an organic molecule (amide) containing 46% nitrogen in the form of amine groups. UREA is infinitely soluble in water and is a benign and safe chemical to handle.

#### **Application Recommendations**

- The UREA micro-prill is added to cattle feed to boost the protein content. UREA is only a nutrient to animals with rumens that possess the urease enzyme which allows the metabolism of the chemical.
- UREA prill may also be used as a slow release fertilizer. It must be decomposed by microorganisms before it can be assimilated by plants.
- Consult your local fertilizer dealer for fertilizer applications of this product.

### Transportation, Storage and Handling

- UREA will decompose into ammonia and carbon dioxide at 275°F.
- ALWAYS wash vessels containing UREA thoroughly before attempting repairs requiring welding.
- Should a large spill of UREA micro-prill solution occur, <u>ALWAYS</u> restrict it from the drainage. The high nitrogen content (46%) may kill foliage if not diluted.
- · UREA can be handled by the municipal water treatment facility if spilled in a municipality.
- **NEVER** allow UREA to come in contact with nitric acid. The resulting chemical is unstable and dangerous.

## **Hazardous Shipping Description**

- There are no DOT restrictions (other than weight) to transport UREA.
- Consult MSDS #1132 for more specific and comprehensive information about chemical hazards.

Information regarding the contents and levels of metals in this product is available on the internet at http://www.regulatory-info-jr.com

IMPORTANT: READ BEFORE USE. Read the entire Directions for Use, Conditions of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties, and Limitations of Liability. CONDITIONS, DISCLAIMER OF WARRANTIES, and LimitationS OF LIABILITY. CONDITIONS: The Directions For Use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risk associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of J.R. Simplot Company and its affiliates (collectively, "Simplot"). To the extent consistent with applicable law, simplot makes no other warranties contained herein.
