DESCRIPTIONS AND BENEFITS

Poultry 23% Starter

Rich in protein and energy to support chick growth, optimized mineral and vitamin levels for chick development and health. For chicks from birth to 6 weeks old.

Poultry 16% Grower

Protein level suitable for growing chicks, optimized mineral and vitamin levels for bird development and health. Begin feeding at 6 weeks old and continue until fully mature.

Poultry 16% Layer

Protein level enhanced by added lysine and methionine to ensure optimal egg production and hen health. Fortified with calcium to support egg shell development. Optimized mineral and vitamin levels for hen well being.

Scratch Grains

Corn, wheat, and milo combination can be spread on the ground to satisfy poultry's instinct to "scratch" for their food. Offer as a treat to compliment a complete ration.

Scratch Block

Corn, milo, and wheat combine to offer a treat for birds to satisfy the "scratch" instinct. The block form regulates availability of the scratch and eliminates the need for daily scratch supplementation. Feed along with a complete ration.

Poultry 16% All Purpose

Quality protein boosted with lysine and methionine suitable for all types of mature poultry. Optimized mineral and vitamin level supports birds' health and wellbeing.
